Printed books use three times more raw materials and 78 times more water to produce compared to e-books. [172] A 2017 study found that, even when counting the emissions created in the manufacture of the e-reader device, replacing more than 4,7 printed books per year resulted in fewer greenhouse gas emissions than printing. [172] While an e-
reader costs more than most individual books, e-books may have a lower cost than paper books. [173] E-books can be made available for less than the price of traditional books printers. [174] In addition, several e-books are available for less than the price of traditional books printers.

book is an important aspect in the design of books and its beauty as an object, there may be a lack of privacy for the user what the user is reading, if the user finished the book, where the user is, how long the user He spent on each page and which
passages the user may have highlighted. [178] An obstacle is wide adoration of the ebook is that a large part of people values the book printed as an object in itself, including aspects such as texture, smell, weight and appearance on the shelf. [179] Printed books are also considered valuable cultural items and liberal education and humanities. [180]
